I have worked in the Film and Television industry since 1997.
I started as a prop maker and specialty wardrobe fabricator and have also been the on-set supervisor for various movies and television shows.

During this time I learned to fiberglass, make molds, vacuiform, resin cast, metal fabrication/working, specialty wardrobe fabrication, safe operation of shop machinery as well as cutting, sewing and pattern making.

You can see my IMDb page for a full list of shows and movies.
