TV:

Fear: Buried Alive Set Dresser - Leadman: Ricardo Orta

New Media:

The Fourth Door: Episodes 1-12 Leadman, 5-ton Driver -
Production Designer: Gary Randall

Specialty Training and Experience:

Previous to entering the film industry I worked as a Union Construction carpenter for 6 years, while also selling my own carpentry jobs at night. I receive 4 years of apprenticeship training from the union on how to do everything from formwork for concrete footers to fine finish carpentry, and 2 years of vocational school training in heating and air conditioning field. Through this training and experience I have learned how to build or modify a huge range of materials and objects to fulfill almost any need and clearly communicate with other people in a concise manner to complete the task at hand.

Goal:

To be the most organized and well prepared leadman in Los Angeles. I plan to accomplish this by continuing to work toward culminating a crew of art department people that come together to form a cohesive team. By spending time building a leadman kit that anyone would be proud of and continuing to keep it well organized in a fashion that everyone will be able to use it.
